The future is decentralised

## 1- Different blockchains CANNOT COMMUNICATE

# 2- They are NOT really TRANSPARENT

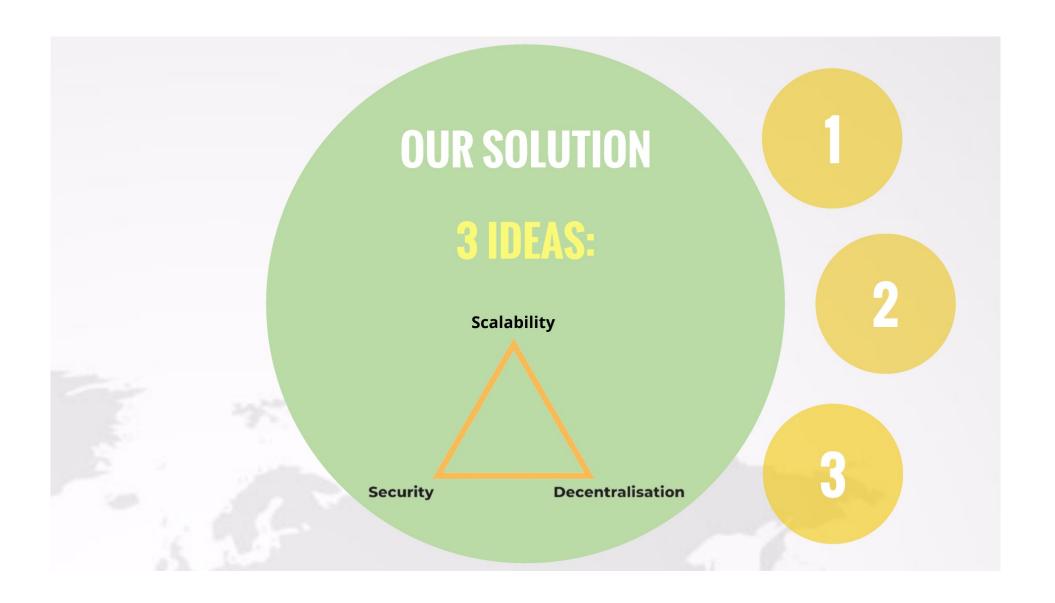

## 3- They are often NOT SUSTAINABLE

The future is decentralised

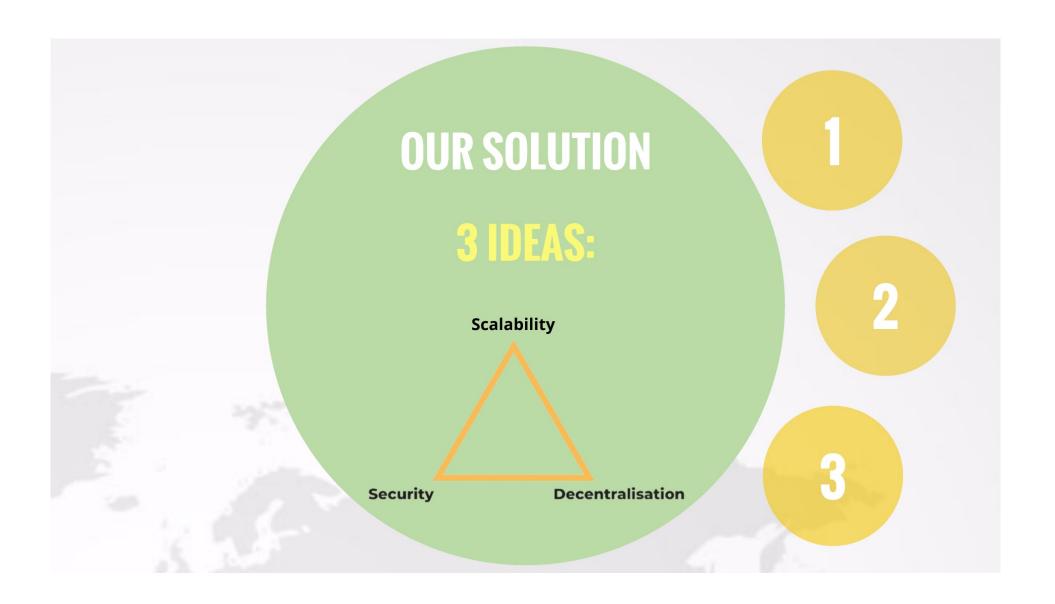

The future is decentralised

- Grow our knowledge and apply our "chain" NOT ONLY to the agri-food system
- Reach out companies and experts to help us understand how far our blockchain system can be pushed & where the problems are
  - Build our start-up
